NATIONAL HEA

Community Medicine (PSM) | 3rd Year

Hi Sammy!
NHPs = guaranteed 20+ marks in PSM exams!
Super high yield!

NHPs | PSM | 3rd Year | MBBS

WHAT'S INSIDE

- Overview of Major NHPs, NTEP & NACP p.2
- RNTCP/NTEP (DOTS, Diagnosis, Treatment) p.3
- UIP Schedule, NVBDCP, NLEP, Polio p.4
- NPCB, NMHP, NPCDCS, IDSP, NHM p.5
- Exam Strategy & High Yield p.6

Overview of Major NHPs

India has 15+ national health programs! Know the year & goal of each!

Major National Health Programs at a Glance

Program	Year	Key Goal
NTEP (RNTCP)	1997	TB elimination by 2025; DOTS strategy
NACP (HIV/AIDS)	1992	Halt & reverse HIV epidemic; phases I-V
UIP (Immunization)	1985	Free vaccines for 12 diseases; 2.67 Cr neonates/yr
NVBDCP (Malaria)	2003	Control malaria, dengue, chikungunya, filaria, KA
NLEP (Leprosy)	1983	Elimination (<1/10,000); MDT treatment
Pulse Polio	1995	Polio eradication; India polio-free since 2011
NPCBVI (Blindness)	1976	Reduce blindness to 0.3%; free cataract surgery
NMHP (Mental Hlth)	1982	Community-based mental health care
NPCDCS (NCDs)	2010	Control diabetes, CVD, stroke, cancer
IDSP (Surveillance)	2004	Disease surveillance & outbreak response

NTEP (Formerly RNTCP) — TB Elimination

NTP 1962:	X-ray based diagnosis, BCG vaccination (had many gaps)
RNTCP 1997:	Adopted WHO DOTS strategy; nationwide by 2006
NTEP 2020:	Renamed; shift from control to ELIMINATION by 2025
NSP:	National Strategic Plan 2017-25: Detect, Treat, Prevent, Build

NACP — HIV/AIDS Control (5 Phases)

Phase	Period	Focus
NACP-I	1992-99	Awareness, blood safety, surveillance setup
NACP-II	1999-06	Targeted interventions for HRGs; ART program began
NACP-III	2007-12	Halt & reverse epidemic; scale up ICTC/ART centers
NACP-IV	2012-17	Reduce new infections by 50%; consolidation
NACP-V	2021-26	End AIDS by 2030 (SDG 3.3); Rs 15,471 Cr outlay

★ **UIP (1985): Largest immunization program globally! Covers 12 diseases.**
Pentavalent = DPT + HepB + Hib in ONE shot. MR replaced measles vaccine.

DOTS strategy + treatment regimen = asked in EVERY PSM exam! Learn cold!

DOTS Strategy (5 Components)

1. Political commitment with increased funding
2. Case detection through quality sputum microscopy
3. Standardized treatment with DIRECT observation (DOT)
4. Uninterrupted supply of quality drugs
5. Systematic monitoring & accountability (cohort analysis)

TB Diagnosis under NTEP

Method	Details
Sputum microscopy	ZN stain for AFB; 2 samples (1 early morning)
CBNAAT/GeneXpert	Rapid molecular test; detects TB + Rifampicin resistance
TrueNat	Indian point-of-care molecular test; used at peripheral level
Culture (LJ/MGIT)	Gold standard; solid (LJ) or liquid (MGIT) media
Line Probe Assay	Detects MDR-TB; tests INH + Rifampicin resistance
Chest X-ray	Screening tool; NOT confirmatory alone

NTEP Treatment Regimen (Current)

Phase	Drugs	Details
Intensive (2 mo)	HRZE daily	Isoniazid+Rifampicin+Pyrazinamide+Ethambutol
Continuation (4 mo)	HRE daily	Isoniazid+Rifampicin+Ethambutol (E added now!)
MDR-TB	BPaLM regimen	Bedaquiline+Pretomanid+Linezolid+Moxifloxacin

★ **Key Changes: Old RNTCP vs New NTEP**

Old: Category I, II, III with intermittent thrice-weekly dosing

New: NO categories! Daily FDC, Universal DST, Ethambutol in CP, BPaLM for MDR

NACP — Key Components

- Targeted Interventions (TI) for HRGs: FSW, MSM, IDU, truckers, migrants
- ICTC: Integrated Counselling & Testing Centres (opt-in HIV testing)
- PPTCT: Prevention of Parent to Child Transmission (Nevirapine to baby)
- ART: Free first-line ART (TLE: Tenofovir + Lamivudine + Efavirenz)
- Blood Safety: Mandatory HIV testing of all donated blood since 1989

UIP schedule table is
a MUST for every exam!
Memorize it, Sammy!

National Immunization Schedule (UIP)

Age	Vaccines Given
Birth	BCG + OPV-0 (zero dose) + Hepatitis B (birth dose)
6 weeks	OPV-1 + Pentavalent-1 + RVV-1 + fIPV-1 + PCV-1
10 weeks	OPV-2 + Pentavalent-2 + RVV-2
14 weeks	OPV-3 + Pentavalent-3 + RVV-3 + fIPV-2 + PCV-2
9-12 months	MR-1 + JE-1 (endemic areas) + PCV booster
16-24 months	MR-2 + JE-2 + DPT booster-1 + OPV booster
5-6 years	DPT booster-2
10 years	Td (Tetanus + reduced Diphtheria)
16 years	Td booster
Pregnant	Td (2 doses or booster if previously immunized)

★ **Pentavalent = DPT + HepB + Hib (5 in 1). RVV = Rotavirus. PCV = Pneumococcal.**
fIPV = fractional IPV (intradermal). MR replaced measles vaccine in UIP.

NVBDCP — Vector Borne Disease Control

Disease	Vector	Key Control Measure
Malaria	Anopheles	ACT (Artemisinin), ITN/LLIN, IRS, larvicides
Dengue	Aedes aegypti	Source reduction, fogging, no specific Rx
Chikungunya	Aedes	Symptomatic Rx, vector control
Filariasis	Culex	DEC + Albendazole MDA, MMDP
Kala-azar	Sandfly	Elimination by 2023; AmBisome (L-AmB), IRS

NLEP (Leprosy) - 1983

- Elimination <1/10,000 (achieved 2005)
- MDT: PB (6mo), MB (12mo)
- PB: Dapsone + Rifampicin
- MB: Dapsone + Rifampicin + Clofazimine
- NLEP integrated with GHC services

Polio Eradication

- Pulse Polio started 1995 (NID)
- India polio-free since 2011!
- Certified polio-free: 2014 (SEARO)
- Strategy: OPV (SIA) + IPV (RI)
- AFP surveillance: key monitoring

NHM, Ayushman Bharat,
NPCDCS = hot topics!
Examiners love these!

NPCBVI — Blindness Control (1976)

Goal:	Reduce blindness prevalence to 0.3%
Renamed:	NPCBVI in 2017 (added Visual Impairment)
Strategy:	Free cataract surgery camps + IOL; CSR target 6000/million/yr
Funding:	60:40 (Centre:State); 90:10 for NE & special states

Other Important Programs

Program	Year	Key Points
NMHP	1982	Community mental health; District MH Programme (DMHP)
NPCDCS	2010	Diabetes, CVD, stroke, cancer; NCD clinics at CHC/DH
IDSP	2004	Weekly disease surveillance; S/P/L forms; outbreak alerts
NPHCE	2010	Health care of elderly (>60 yrs); NCD screening
RBSK	2013	Rashtriya Bal Swasthya Karyakram; 4Ds: Defects/Disease/Deficiency/Delay
RKSK	2014	Rashtriya Kishor Swasthya Karyakram; adolescent health
NTCP	2007	National Tobacco Control; COTPA Act, no smoking zones

NHM — National Health Mission (2013)

- NHM = NRHM (2005) + NUHM (2013) merged into one umbrella mission
- ASHA: Accredited Social Health Activist (key community health worker)
- VHND: Village Health & Nutrition Day (monthly outreach session)
- JSY: Janani Suraksha Yojana (cash incentive for institutional delivery)
- JSSK: Janani Shishu Suraksha Karyakram (free delivery + treatment)

Ayushman Bharat (2018)

Pillar 1:	Health & Wellness Centres (HWC) — comprehensive primary care
Pillar 2:	PM-JAY (PM Jan Arogya Yojana) — Rs 5 lakh/family/year insurance
Coverage:	10.74 Cr vulnerable families (50 Cr beneficiaries)
Goal:	Universal Health Coverage (UHC); reduce catastrophic expenditure

IDSP Forms — Remember S-P-L!
S form = Syndromic (health workers) | P form = Presumptive (PHC/CHC labs)
L form = Lab-confirmed (district/state labs). Weekly reporting to CSU/DSU/SSU!

NHPs = guaranteed 20+ marks in PSM! You've GOT this, Sammy!

Most Repeated LAQs (10-12 marks)

1. Describe RNTCP/NTEP — DOTS strategy, diagnosis, treatment regimen
2. Write about NACP phases, strategies, and achievements in India
3. National Immunization Schedule with vaccines at each age
4. NVBDCP — National Malaria Control strategies & treatment
5. Describe NHM — objectives, components, ASHA, JSY, JSSK

Most Repeated SAQs (5-6 marks)

1. DOTS strategy — 5 components
2. MDT for leprosy (PB vs MB regimen)
3. Pulse Polio programme & AFP surveillance
4. Ayushman Bharat — 2 pillars & PM-JAY
5. IDSP — objectives, S/P/L forms
6. NPCBVI — objectives & achievements

One-Liner Associations (MCQ/Viva Gold)

Question	Answer
DOTS stands for?	Directly Observed Treatment Short-course
NTEP target year for TB elimination?	2025
India declared polio-free?	2014 (by SEARO/WHO)
ASHA belongs to which programme?	NHM (NRHM component)
Pentavalent vaccine protects against?	DPT + HepB + Hib (5 diseases)
PM-JAY coverage per family?	Rs 5 lakh/year (cashless)
MDT for PB leprosy?	Dapsone + Rifampicin x 6 months
MDT for MB leprosy?	Dapsone + Rifampicin + Clofazimine x 12 mo
NACP current phase?	NACP-V (2021-2026)
Kala-azar drug of choice?	Liposomal Amphotericin B (AmBisome)
First NHP in India?	National Malaria Control Programme (1953)
UIP covers how many diseases?	12 vaccine-preventable diseases

High Yield Checklist

MUST KNOW

- DOTS 5 components
- NTEP treatment regimen
- UIP schedule (all ages)
- NACP phases I-V
- NHM + ASHA + JSY

HIGH YIELD

- MDT regimen (PB vs MB)
- Pulse Polio & AFP
- NVBDCP diseases
- Ayushman Bharat pillars
- IDSP S/P/L forms

BONUS

- NPCDCS components
- RBSK 4Ds
- NPCBVI history
- NMHP & DMHP
- COTPA provisions

♥ These programs save millions of lives, Sammy! ♥
